

I WISH IT WOULD RAIN (Nanci Griffith)

Oh I wish it would rain and wash my face clean
I want to find some dark cloud to hide in here
Oh love in a memory sparkles like diamonds
When the diamonds fall they burn like tears
When the diamonds fall they burn like tears

Once I had a love from the Georgia Pines
who only cared for me
I want to find that love of 22 here at 33
I've got a heart on my right and one on my left
But neither suits my needs
No, the one I love is way out west
and he never will need me

So I wish it would rain and wash my face clean
I want to find some dark cloud to hide in here
Oh love in a memory sparkles like diamonds
When the diamonds fall they burn like tears
When the diamonds fall they burn like tears

I'm gonna pack up my two-steppin' shoes
and head for the Gulf Coast plains
I want to walk the streets of my old home town
where everybody knows my name
I want to ride the waves down to Galveston
when the hurricanes blow in
Cause that Gulf Coast water tastes sweet as
wine
When your heart's rolling home in the wind
And I wish it would rain and wash my face
clean
I want to find some dark cloud to hide in here
Oh love in a memory sparkles like diamonds
When the diamonds fall they burn like tears
When the diamonds fall they burn like tears
When the diamonds fall, darlin'.
they burn like tears
