

I WISH IT WOULD RAIN (Nanci Griffith)

Oh I wish it would rain and wash my face clean
 I want to find some dark cloud to hide in here
 Oh love in a memory sparkles like diamonds
 When the diamonds fall they burn like tears
 When the diamonds fall they burn like tears

Once I had a love from the Georgia Pines
 who only cared for me
 I want to find that love of 22 here at 33
 I've got a heart on my right and one on my left
 But neither suits my needs
 No, the one I love is way out west
 and he never will need me

So I wish it would rain and wash my face clean
 I want to find some dark cloud to hide in here
 Oh love in a memory sparkles like diamonds
 When the diamonds fall they burn like tears
 When the diamonds fall they burn like tears

I'm gonna pack up my two-steppin' shoes
 and head for the Gulf Coast plains
 I want to walk the streets of my old home town
 where everybody knows my name
 I want to ride the waves down to Galveston
 when the hurricanes blow in
 Cause that Gulf Coast water tastes sweet as
 wine
 When your heart's rolling home in the wind

And I wish it would rain and wash my face
 clean
 I want to find some dark cloud to hide in here
 Oh love in a memory sparkles like diamonds
 When the diamonds fall they burn like tears
 When the diamonds fall they burn like tears
 When the diamonds fall, darlin',
 they burn like tears
