

## Dark End of the Street (The Commitments via Percy Sledge)

*Cold start, count 1...2...3...*

      |G      D      |Em  
At the dark end of the street

      |G      D      |Em  
That's where we always meet

      |G                  C\*  D\*  |G  
Hiding in shadows where we don't be-long

      |C      D          |G      C  
Living in darkness, to hide our wrong

      |G      |C      D      |G      C      |G      D  
You and me, at the dark end of the street, you and me

      |G      D      |Em  
I know time's gonna take its toll

      |G      D      |Em  
We'll have to pay for the love we stole

      |G      C\*  D\*  |G  
It's a sin, and we know it's wrong

      |C      D          |G      C  
Oh but our love keeps comin' on strong

      |G      |C      D      |G      C          |G      D  
Steal a-way, to the dark end of the street, mmm-mmm-mmm

      |G                  |D  
They're gonna find us.....They're gonna find us.....

      |Em      C          |G      C  
They're gonna find us, lord, some day

|G          |C          D          |G      C          |G      E| (*hold*)  
You and me, at the dark end of the street, you and me

                  |A                  E          |F#m  
And when the daylight hours roll a-round

          |A                  E                  |F#m  
And by chance, we're both downtown

                  |A      D                  |A  
If we should meet, just walk on by, yeah,

          |F#m      E                  |A      D  
Oh, darlin', please don't cry

                  |A                  |D          E          |A      D\*                  |A\*      |  
Tonight we'll meet, at the dark end of the street, mmm-mmm-mmm
