

I WISH IT WOULD RAIN (Nanci Griffith)

Oh I wish it would rain and wash my face clean  
I want to find some dark cloud to hide in here  
Oh love in a memory sparkles like diamonds  
When the diamonds fall they burn like tears  
When the diamonds fall they burn like tears

Once I had a love from the Georgia Pines  
who only cared for me  
I want to find that love of 22 here at 33  
I've got a heart on my right and one on my left  
But neither suits my needs  
No, the one I love is way out west  
and he never will need me

So I wish it would rain and wash my face clean  
I want to find some dark cloud to hide in here  
Oh love in a memory sparkles like diamonds  
When the diamonds fall they burn like tears  
When the diamonds fall they burn like tears

I'm gonna pack up my two-steppin' shoes  
and head for the Gulf Coast plains  
I want to walk the streets of my old home town  
where everybody knows my name  
I want to ride the waves down to Galveston  
when the hurricanes blow in  
Cause that Gulf Coast water tastes sweet as  
wine  
When your heart's rolling home in the wind

And I wish it would rain and wash my face  
clean

I want to find some dark cloud to hide in here  
Oh love in a memory sparkles like diamonds  
When the diamonds fall they burn like tears  
When the diamonds fall they burn like tears  
When the diamonds fall, darlin'.  
they burn like tears
